

## **Best Partner Solution 2010**

**EASY SOFTWARE AG selects the interface developed by Sycor for the integration of the ECM solution EASY ENTERPRISE.x with Microsoft Dynamics AX as the "Best Partner Solution 2010".**

(*Goettingen, Germany*) The specialists for electronic archiving, document management and enterprise content management EASY SOFTWARE AG from Mülheim an der Ruhr and the full-range IT service provider Sycor from Goettingen announced their cooperation agreement in October of last year. Their joint objective was the development of an interface to integrate the ECM solution EASY ENTERPRISE.x with Microsoft Dynamics AX.

Now the partners were able to present the fruits of their labor: Sycor has completed development of the official interface EASY for DYNAMICS AX. Gereon Neuhaus, CEO of EASY SOFTWARE AG, commented: "We were impressed by the quality and functionality of the interface. This is why we selected it as the 'Best Partner Solution 2010'."

This development opens up the full range of possibilities in the field of enterprise content management for companies using Microsoft Dynamics AX as their ERP solution. "Microsoft Dynamics AX users are now able to store their incoming and outgoing vouchers properly in compliance with audit requirements. They can access data, information and documents reliably and quickly at any time," explains Christian Offermann, Head of Enterprise Content Management at Sycor. EASY ENTERPRISE.x stands for ultimate reliability, optimum availability and scalability.

Background information:

### **EASY for DYNAMICS AX**

EASY for DYNAMICS AX is the official interface for the integration of the ECM solution EASY ENTERPRISE.x by EASY SOFTWARE AG with Microsoft Dynamics AX. The interface was developed in cooperation with SYCOR GmbH from Goettingen.

This opens up the full range of possibilities offered by the high-availability, highly scalable ECM solution EASY ENTERPRISE.x to Microsoft Dynamics AX customers – optimized document storage, access and management. They can access data, information and documents quickly and reliably at any time. EASY ENTERPRISE.x stands for ultimate reliability.

Documents created in Microsoft Dynamics AX (outgoing documents) are automatically stored in the archive without user intervention and in compliance with audit requirements when they are printed. Incoming paper documents are readily captured and archived using EASY CAPTURE. Depending on process requirements, the assignment to Microsoft Dynamics AX workflows may be implemented as "early scanning" (scanning followed by recording and linking the voucher and document) or "late scanning" (recording followed by document scanning and automatic assignment to the voucher via barcode).

Searching for archived documents is supported by a standard EASY client or by using EASY xSHARE integrated into Microsoft Dynamics AX. By default, standardized business management keywords tailored to customer requirements support searches using an EASY client (without access to Microsoft Dynamics AX).

In addition, easy access to the company archive ("not Microsoft Dynamics AX archive") is possible by using EASY xSHARE.

### **About Sycor:**

As a service provider with a worldwide staff of about 300, the Sycor Group covers the whole spectrum of information and communications technology. With headquarters in Goettingen and further locations in Wiesbaden, Hamburg, Pittsburgh (USA), Montreal (Canada), Singapore, Shanghai (China) and Kuala Lumpur (Malaysia) the company is as international as many of its customers. Sycor primarily provides Microsoft Dynamics AX and SAP® ERP services in addition to management and strategy consulting. The company develops and operates tailored solutions in the areas of telecommunication, archiving and document management, e-business, IT outsourcing and networks.

In the SAP environment, the company focuses on industrial manufacturing companies. Sycor offers industry-specific SAP Business All-in-One solutions for businesses in the plastics processing industry, automotive component suppliers, surface finishing companies and metal processing enterprises. Sycor also supports companies in the mobile goods rental, printing and packaging, process and retail industries with industry solutions based on Microsoft Dynamics AX.

In addition, Sycor serves the financial services sector in Asia and the oil and gas industry in the US. Founded in 1998, the Sycor Group has had a DIN EN ISO 9001:2000 certified quality management system and SAP® Hosting Partner status since 2002. Sycor is also a Microsoft Gold Certified Partner. The company generated €35 million in sales in 2009.

### **Market-Leading Solutions**

With more than 10,000 customer installations, EASY SOFTWARE AG is among the leading developers and providers of cross-platform solutions in the fields of electronic archiving, document management and enterprise content management.

Based on the latest technologies, EASY SOFTWARE AG offers user-oriented document management software for common operating systems, work environments and file formats. At the same time, EASY is able to provide tailor-made solutions to optimize document-based processes for any industry and for companies of all sizes. The EASY ENTERPRISE document and archive server forms the basis of the EASY product portfolio, which also includes seamlessly integrated archiving solutions for selected standard software environments such as SAP, IBM Lotus Notes / Domino, Microsoft Dynamics NAV and Microsoft Office.

### **Market-Leading Sales and Expert Network**

EASY SOFTWARE has developed a comprehensive network of certified partners that is virtually unique in the DMS market. With an extensive regional presence - nationally and internationally - and thanks to the many industry-specific and specialized solutions of the EASY partners, customers and prospects can always find a qualified contact and DMS solution partner close by to meet their needs.
