

## Sycor achieves a new status as partner with IBM

**By achieving the status of Value Added Reseller, Sycor has demonstrated its profound expertise in ECM (Enterprise Content Management) and strengthened its longstanding partnership with IBM Deutschland GmbH.**

*(Goettingen)* "We are delighted that simultaneously with our new status as a Value Added Reseller, we have also become a support provider for IBM Deutschland GmbH. Currently, only few providers can offer support for Enterprise Content Management ", Christian Offermann, manager of the ECM division at Sycor GmbH, emphasized. With their know-how, Sycor experts cover not only the complete functional range of IBM FileNet P8, but also of the systems involved. The spectrum of services includes consulting, development of solutions, sales, sub-licensing and installation. Full outsourcing of the operation is also possible - naturally with qualified end customer support. Offermann added that "The basis for the new partnership status was not only the certifications that demonstrated our ECM expertise and the quality processes, but also our numerous successful past projects."

IBM Deutschland GmbH and Sycor are optimal partners to master challenges in the field of ECM. As one of the biggest IT companies worldwide, IBM deservedly has a decisive market share in the field of DMS and Enterprise Content. With its FileNet P8 Suite, IBM provides an intelligent, future-oriented solution for document management at the highest level. Sycor builds on this foundation. With our many person-years of experience in the field of ECM and archiving as well as a focus on the organization, timeframe and budget, we make the full potential of the IBM solutions useable for small and medium-sized businesses.

The results are tailor-made solutions with which processes can be optimized, costs lowered and compliance requirements fulfilled. At the same time, a reorganization of company wide data ensures faster access to quality information. This forms the basis for quick decisions and a crucial competitive edge.

**About Sycor:**

As a service provider with a worldwide staff of about 300, the Sycor Group covers the whole spectrum of information and communications technology. With headquarters in Goettingen and further locations in Wiesbaden, Hamburg, Pittsburgh (USA), Montreal (Canada), Singapore, Shanghai (China) and Kuala Lumpur (Malaysia) the company is as international as many of its customers. Sycor primarily provides Microsoft Dynamics AX and SAP® ERP services in addition to management and strategy consulting. The company develops and operates tailored solutions in the areas of telecommunication, archiving and document management, e-business, IT outsourcing and networks.

In the SAP environment, the company focuses on industrial manufacturing companies. Sycor offers industry-specific SAP Business All-in-One solutions for businesses in the plastics processing industry, automotive component suppliers, surface finishing companies and metal processing enterprises. Sycor also supports companies in the mobile goods rental, printing and packaging, process and retail industries with industry solutions based on Microsoft Dynamics AX.

In addition, Sycor serves the financial services sector in Asia and the oil and gas industry in the US. Founded in 1998, the Sycor Group has had a DIN EN ISO 9001:2000 certified quality management system and SAP® Hosting Partner status since 2002. Sycor is also a Microsoft Gold Certified Partner. The company generated €35 million in sales in 2009.
