

Sycor is a Gold-Level Channel Partner of SAP

Effective immediately, Sycor is a Gold-Level Channel Partner of SAP Deutschland AG & Co. KG. Only one year after Silver, the Göttingen-based full IT service provider has now reached the highest level in the SAP PartnerEdge program with its Gold status.

(Göttingen) "We are happy about having been so successful on the market that we, as a Channel Partner to SAP, have graduated from the Silver to the Gold Level in just one year," emphasizes Dr. Steffen Gremler, the Sycor manager in charge of SAP Systems.

In the classification under the SAP PartnerEdge program, Sycor was able to score points in all relevant criteria: SAP did not only honor the sales performance, but also the training and qualification measures conducted for the employees, the solutions developed in-house, and the targeted marketing activities for the performance portfolio as an SAP partner. Key to achieving the Gold status was also the clear positioning of Sycor as a globally powerful SAP partner for SMEs in the manufacturing industry. Dr. Steffen Gremler adds, "We have demonstrated our process, industrial and SAP expertise for manufacturing companies in a wide number of projects. As a result, our employees have developed an eye for both the overall process and key details."

As a Channel Partner to SAP, Sycor assists customers with qualified SAP Business All-in-One partner solutions, internally developed add-ons and its broad competence as a full-range IT service provider along the entire supply chain.

About Sycor:

The Sycor group of companies is a provider of comprehensive IT services with approximately 440 employees around the world. With headquarters in Göttingen and further locations in Germany, Asia and North/South America, the company has positioned itself internationally. As a Gold-Level Channel Partner of SAP Deutschland AG & Co. KG, Sycor provides customers primarily with the whole range of SAP ERP services: consulting, implementation, operation, support, licensing and maintenance.

The consultants and developers have an exceptional amount of project experience as well as process and solution know-how in the area of industrial manufacturing companies. They support customers along the entire value-added chain with fully integrated SAP Business All-in-One industry solutions. Sycor's products include *Sycor.Plastics* for plastics processing companies, *Sycor.Automotive* for automotive component suppliers, *Sycor.Medical* for businesses in the medical technology sector, *Sycor.Surface* for surface finishing enterprises and *Sycor.Metal* for metal processing companies.

Sycor provides additional optimization potential with the in-house and SAP-based solutions *Sycor.ProductionCockpit* and *Sycor.OrderCockpit* as well as individual solutions for cross-system data exchange via Electronic Data Interchange (EDI). *Sycor.MDE* and *Sycor.BDE* to capture machine and operational data round off the product portfolio. Last but not least, the company develops, implements and operates high availability solutions in the areas of archiving and document management, and IT outsourcing. In addition, Sycor provides the full range of IT services revolving around online shops for SAP ERP and SAP CRM, and is involved around the world in implementation and consultation projects for the oil and gas industry.

The group of companies, founded in 1998, has had in place a quality management system certified according to DIN EN ISO 9001 since 2002, and has also been awarded SAP Hosting Partner status. In 2010, the company recorded sales of 40.2 million euros with 310 employees.
